# **Adverse Childhood Experiences (ACEs)**

# **Finding Your ACE Score**

### While you were growing up, during your first 18 years of life:

<ol> <li>Did a parent or other adult in the household often         Swear at you, insult you, put you down, or humiliate you?         or         Act in a way that made you afraid that you might be physically heads.     </li> </ol>	
Yes No	If yes enter 1
2. Did a parent or other adult in the household often  Push, grab, slap, or throw something at you?  or  Ever hit you so hard that you had marks or were injured?	
Yes No	If yes enter 1
3. Did an adult or person at least 5 years older than you ever  Touch or fondle you or have you touch their body in a sexual water or actually have oral, anal, or vaginal sex with you?  Yes No	If yes enter 1
4. Did you <b>often</b> feel that	
No one in your family loved you or thought you were important or special?  or	
Your family didn't look out for each other, feel close to each oth Yes No	ner, or support each other?  If yes enter 1
5. Did you <b>often</b> feel that You didn't have enough to eat, had to wear dirty clothes, and had no one to protect you?  or  Your parents were too drunk or high to take care of you or take you to the doctor if you needed it?	
Yes No	If yes enter 1

# **Finding Your ACE Score**

6. Were your parents <b>ever</b> separated or divorced?  Yes No	If yes enter 1
7. Was your mother or stepmother:  Often pushed, grabbed, slapped, or had somethin or  Sometimes or often kicked, bitten, hit with a fisher.	
Ever repeatedly hit over at least a few minutes of Yes No	or threatened with a gun or knife?  If yes enter 1
8. Did you live with anyone who was a problem drinker Yes No	or alcoholic or who used street drugs?  If yes enter 1
9. Was a household member depressed or mentally ill or Yes No	did a household member attempt suicide?  If yes enter 1
10. Did a household member go to prison?  Yes No	If yes enter 1

# As the number of ACEs increase, so does the risk of negative health outcomes

Increased Rate
2.3x
2.3x
4.6x
7.4x
10.3x
12.2x

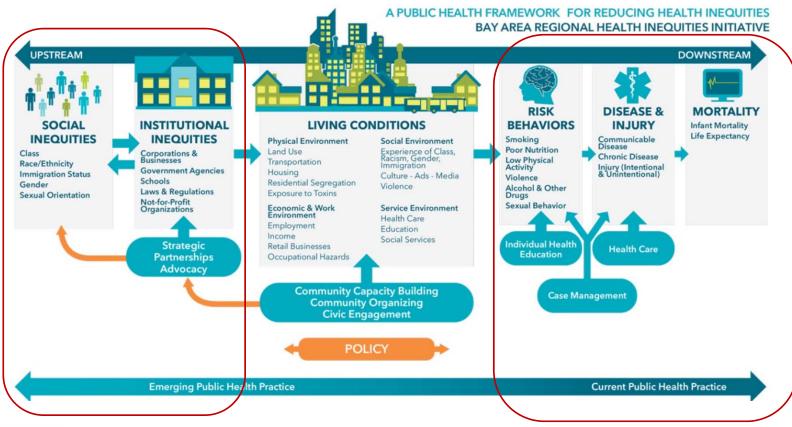

A person with 4+ ACEs is 12.2x as likely to attempt suicide

## **Social Determinants Framework**

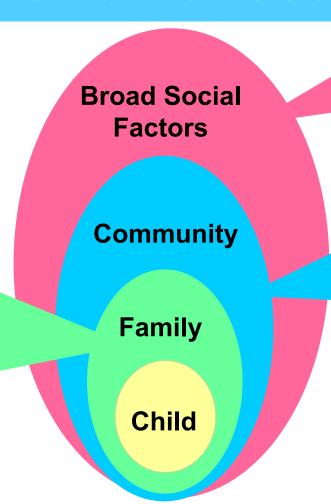

CENTER FOR HEALTHIER CHILDREN, FAMILIES & COMMUNITIES

# **Sources of Childhood Trauma**

- Physical, sexual, emotional abuse
- Physical, emotional neglect
- Witness to domestic violence
- Parental alcohol / drug abuse, mental illness
- Loss of caregiver from death, divorce, imprisonment

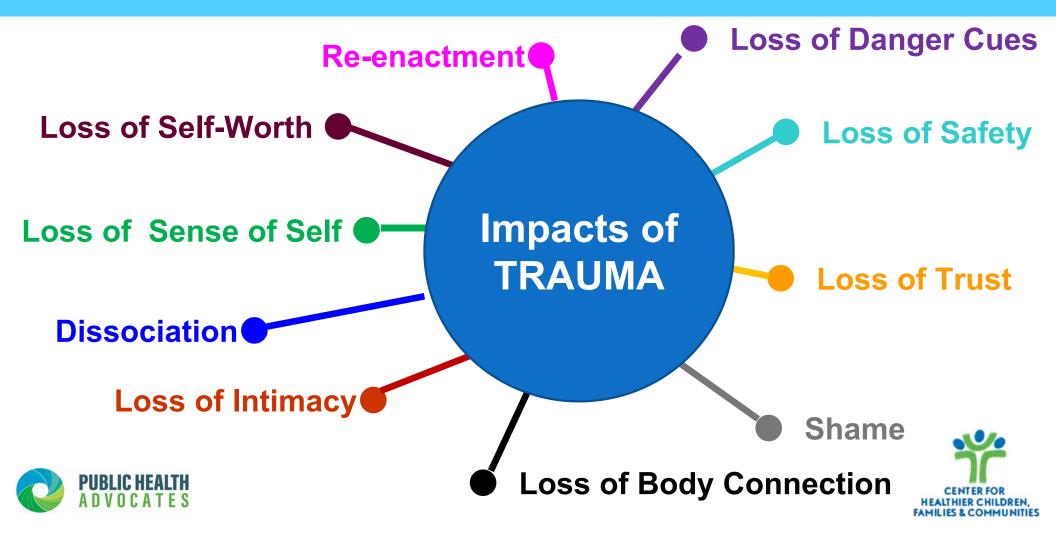

- Personal/structural racism
- Concentrated poverty
- Lack of social support
- Forced displacement
- Physical / sexual abuse
- Victim/witness to violence / threat
- Bullying, teasing
- Lack of safe housing / transportation, basic services

## Impacts of Trauma on the Individual

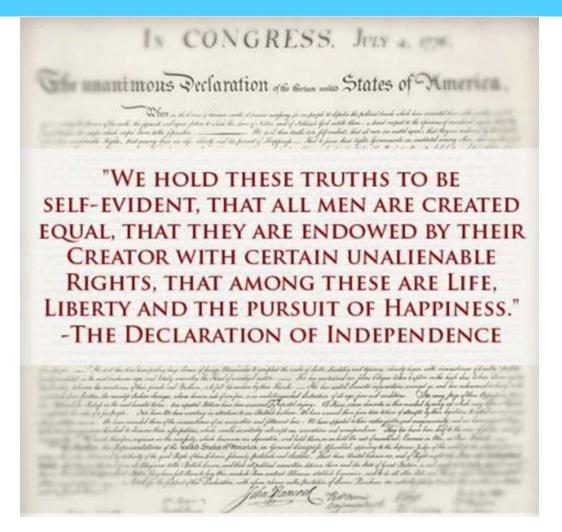

# Sources of Adverse Community Experiences

- DIRECT: Witness or experience racism and violence
- COMMUNITY: Feel and experience racism and violence everywhere
- SAFETY: High levels of trauma across the population: Prevents us from meeting our basic need

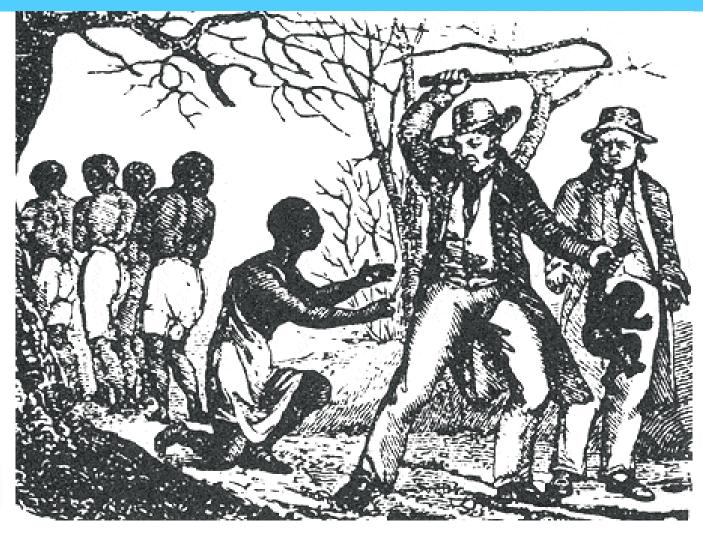

# Is This Really True?

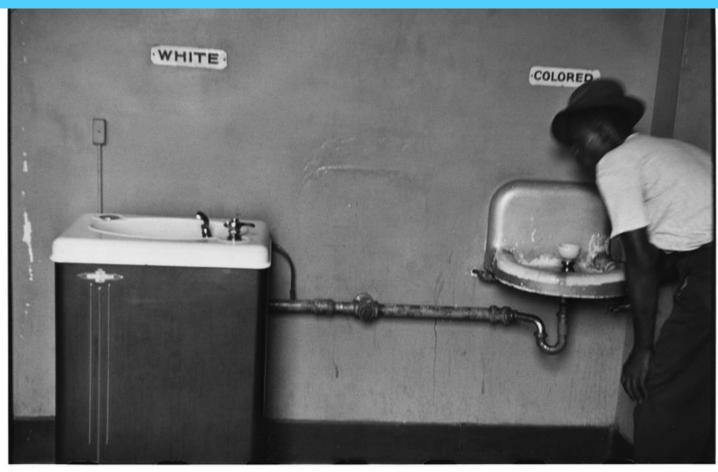

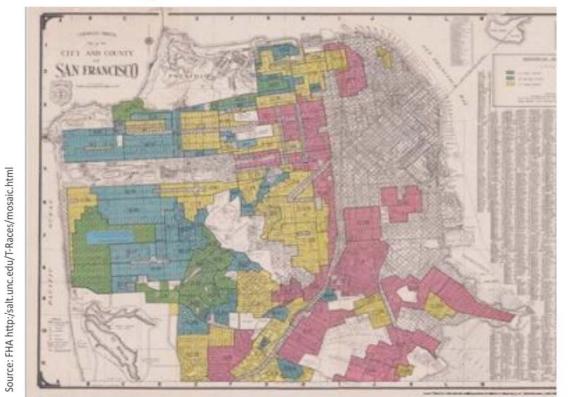

## Redlining in San Francisco

Federal Housing Authority Underwriting Manual:

"Red areas ... are characterized by detrimental influences in a pronounced degree, undesirable population or infiltration of it. . . Some mortgage lenders may refuse to make loans in these neighborhoods and other will lend only on a conservative basis."

# **Legacy of Redlining**

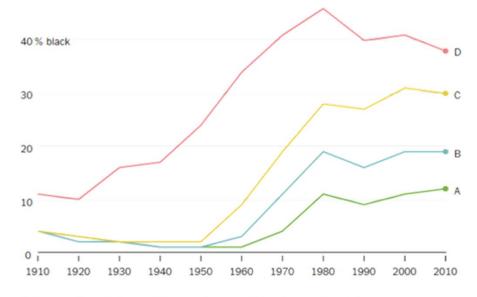

## Official Practice 1934-1968

Fifty Years Later in 2018...

- 2/3 of D areas are inhabited by mostly Black and Latinos
- 91% of A areas remain middle-to-upper-income today
- 85% of A areas still predominantly white

Redlined Neighborhoods Have the Highest Share of Black Residents

D-rated neighborhoods were considered 'hazardous,' A-rated neighborhoods the 'best.'

Data from 149 cities mapped by the Home Owners' Loan Corporation in the 1930s.

Source: 'The Effects of the 1930s HOLC "Redlining" Maps' by D. Aaronson, D. Hartley, B. Mazumder

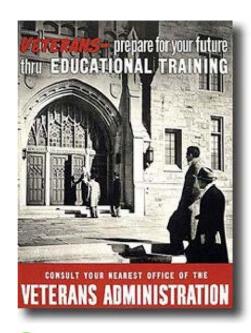

# White families had a 30 year head start in building wealth through homeownership

❖1935 Social Security: Blacks and Latino farm and domestic workers paid in, but were excluded from benefits

❖1937 FHA: First federal agency to openly counsel and support segregation-Between 1930 and 1950, 3 in 5 homes purchased in U.S. were financed by FHA, yet less than 2% were made to non-white home buyers

# The GI Bill was the single greatest instrument for widening racial inequities in postwar America

The largest federal public benefits program in history, and a low-cost route to wealth creation

- Paid college tuition
- Low interest home mortgages
- For every dollar invested, the GI Bill returned \$7 dollars to the nation

### but...

Discrimination in college admission and housing markets prevented most soldiers of color from using the benefits, and thus prevented an accumulation and transfer of wealth to future generations.

# Present Day State Sponsored Wealth Extraction

"Officers appear to see some residents, especially those who live in Ferguson's predominantly African-American neighborhoods, less as constituents to be protected than as potential offenders and sources of revenue."

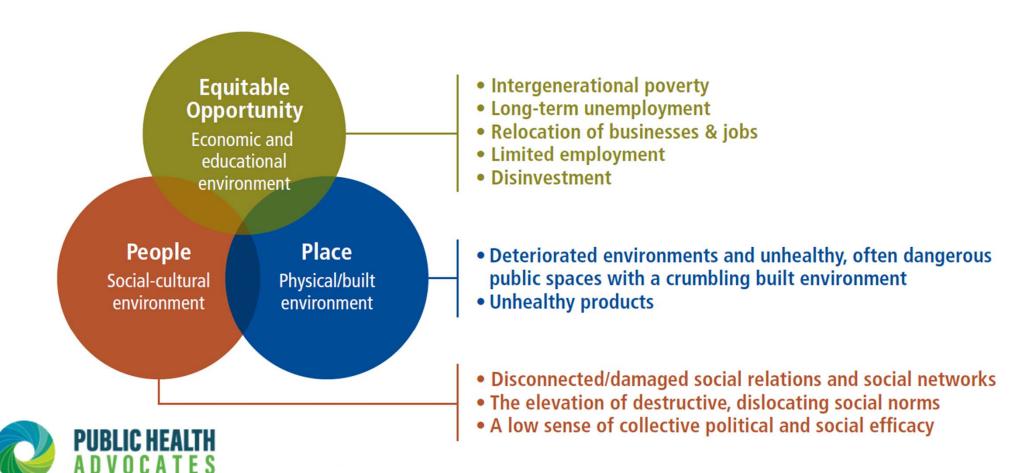

FERGUSON POLICE DEPARTMENT REPORT

Department of Justice

# **Symptoms of Community Trauma**

Source: Adverse Community Experiences and Resilience: A Framework for Addressing and Preventing Community Trauma

# ALL CHILDREN THRIVE CALIFORNIA (ACT/CA)

A one-time allocation of \$10 million in Proposition 63 administrative funds to prevent adverse childhood experiences, counter their effects, promote healing, and foster individual and community resilience to give all California children the opportunity to thrive.

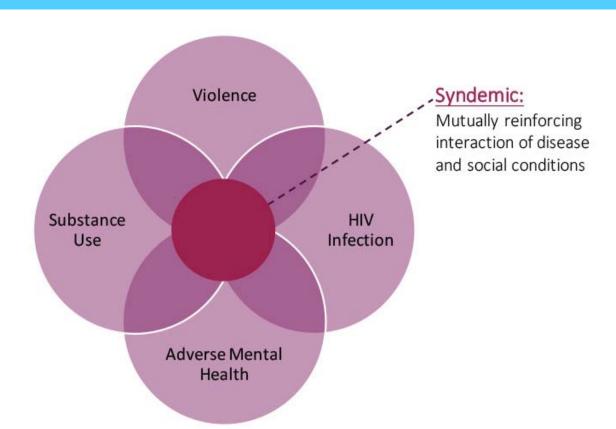

## **Recognize the Challenge**

- Intense challenges facing children
- Problems are not being fully addressed
- No single intervention will work everywhere
- Therefore build on success, embrace uncertainty, and learn together

# **Syndemics Defined**

Population-level clustering of social and health problems

### Criteria:

- two (or more) diseases or health conditions cluster within a specific population
- contextual and social factors create the conditions in which two (or more) diseases or health conditions cluster
- 3. the clustering of diseases results in adverse disease interaction, either biological or social or behavioral, increasing the health burden of affected populations.

### **Interacting Layers of Trauma and Healing**

2019 RYSE

RYSE, 2019

**Nation Building** by Enslavement, Genocide, Colonization, Economic Exploitation, Resource Extraction, White Supremacy, Patriarchy

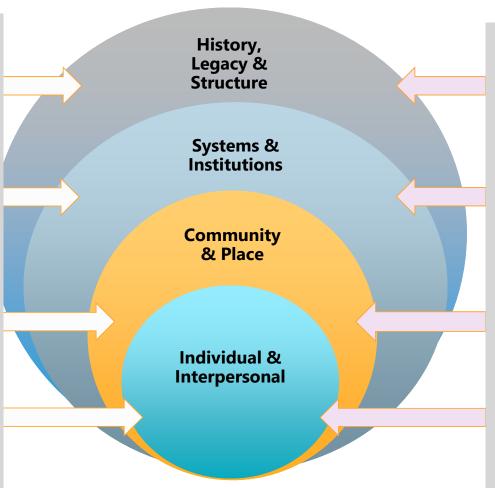

Systemic Subjugation of BIPOC by Interacting Policies & Systems: (Capitalism): War on Drugs, Mass Incarceration, Segregation (de jure and

de facto), Anti-Immigrant Policies, Climate Violence, Media Assaults, Broken Treaties, Displacement &

Redlining

Atmospheric Distress that includes Interpersonal, Family, Community Violence & Exposure; Sexual Exploitation, Lack of Safe Passage and Spaces; Lack of Green Spaces, Underinvestment, Oversurveillance

Embodiment and Expression of Distress through Personal Traumatic Experiences; Bullying, Family Systems Stressors, ACEs, Shame and Blame, Generational Transmission

### **Collective Liberation** by Truth &

Reconciliation, Reparations, Redistribution, Open Borders/No Borders, Multi-racial Solidarity, (Re)imagined Social Compact, Just Transitions

Lead with Love and Justice by Healing-Centered & Restorative Practices, Listening Campaigns, Collective Care, Adaptive, Responsive, and Proximate, Land and Power-sharing (Nothing about us without us)

Build Beloved Community by Radical Inquiry, Popular Education and Culture Building, Celebration and Affirmation; Healing Spaces, Land Acknowledgement, Arts & Expression, Base & Power-Building

### **Honor Resilience and Fortitude** by

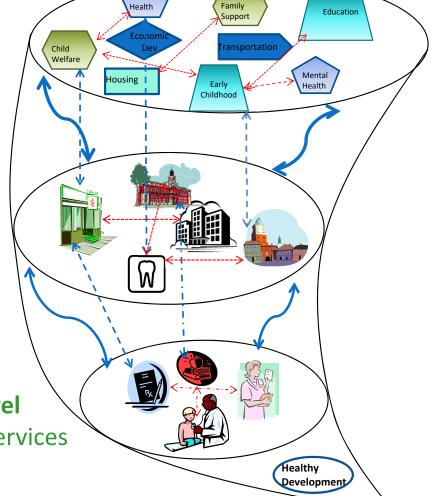

Listening & Validating,
Processing/Integrating Personal Traumatic
Experiences, Family Healing, Tailored
Supports & Opportunities, Loving
Connections To Each Other and The Land;
Loving, Predictable Structure

# **Strategies to Address Community Trauma**

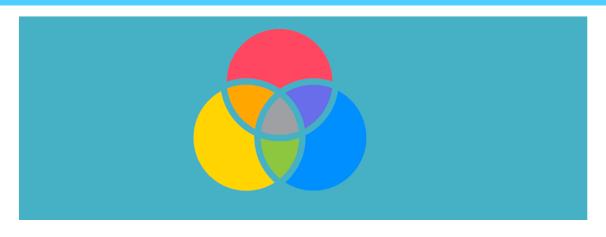

Identify approaches to preventing childhood trauma, diminishing risks, and improving child, family, and community well-being

Review and analyze data infrastructure systems to monitor and improve efforts to ensure child health, development, and well-being

Build a collaborative platform and learning system that include tools and strategies to support social innovation and systems level changes

Provide coaching and technical assistance to cities to prevent trauma and promote resiliency

- Bias/racism

## **Questions for Attendees**

We'll be looking at local models of promising practices and evidenced-based interventions. Would you be willing to send us information about local programs that fit these goals?

We are looking for transformative and disruptive ideas that can dramatically improve the lives of the next generation. Do you have a "big idea" policy suggestion?
