## BIO :

---

Joye has over 20 years of program management, business analysis, and organizational change management experience. Her professional experience spans both public (government) and non-profit (healthcare) sectors.

In her current role at Kaiser Permanente, she provides direct consulting support to the executive vice president of the shared services organization (~15k employees). In this role, she provides strategic thought partnership, manages organizational change planning and execution, and is accountable for implementing operational process improvements to reduce or eliminate non-value-added efforts across the organization.

In addition, Joye has ~10 years of experience facilitating professional development and continuing education programs.

## HOBBIES

---

Joye is fortunate to live at the doorstep of wine country in Northern California and she does her part to support local vintners and eateries. She is currently enjoying the process of restoring her historic home, and when she needs a more predictable project, she loves tackling Technic Legos sets.
