

Population Health Management (PHM)

CHEAC CalAIM Forum
November 17, 2023

PHM Program Overview

Managed Care Plans (MCP) are required to engage meaningfully with members, gather and share data, address upstream drivers of health, provide care management services for at risk populations, provision of transitional care services, reduce health disparities, and identify and mitigate SDOH.

PHM Policy Guide

Updated [PHM Policy Guide](#)
released on October 27, 2023

Outlines the purpose of the
PHM program requirements

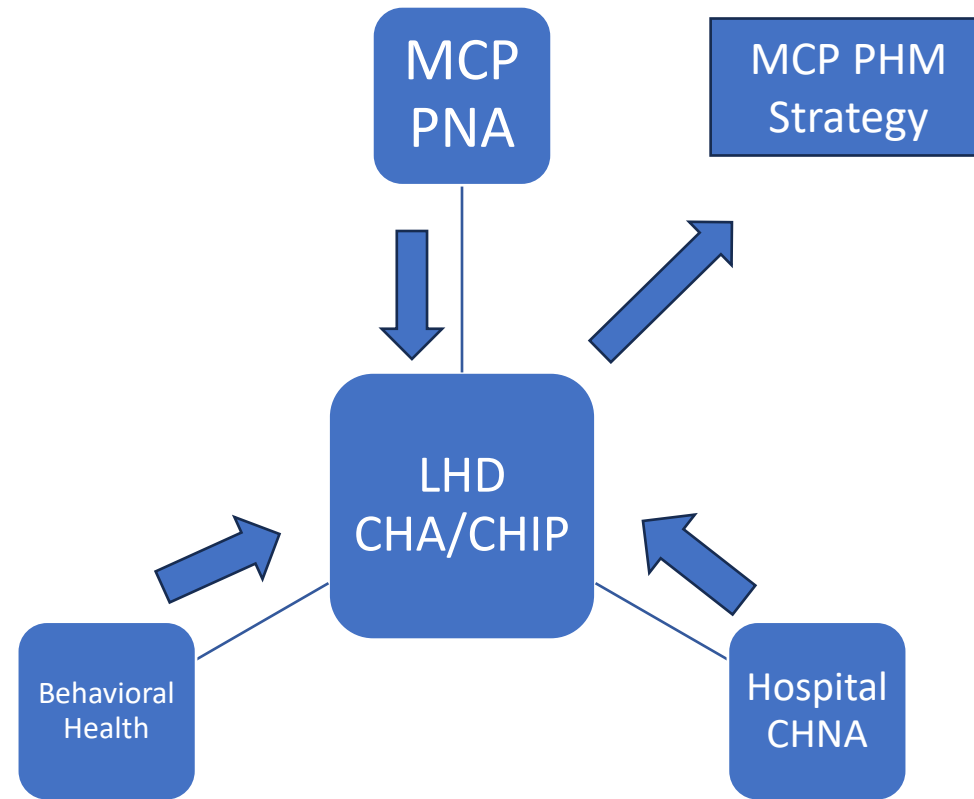

Includes Population Needs
Assessment (PNA) and PHM
Strategy

PHM Strategy due to DHCS by October
31, 2023
