MARIN COUNTY DEPARTMENT OF HEALTH AND HUMAN SERVICES

FUTURE OF PUBLIC HEALTH OVERVIEW

Through the 2022 Budget Act, California took a transformational step toward rebuilding our state and local public health workforce and infrastructure that was devastated by the COVID-19 pandemic and years of disinvestment. The \$300 million ongoing General Fund investment (\$200 million for local health departments, \$100 million for CDPH), referred to as the Future of Public Health, is a critical investment in our state's public health readiness and response to existing and emerging public health threats.

FUTURE OF PUBLIC HEALTH INVESTMENTS REBUILD OUR LOCAL PUBLIC HEALTH WORKFORCE AND INFRASTRUCTURE

- Supports Marin County Outbreak Prevention and Infection Control (OPIC) team which strengthens infection control practices in the county's highest risk settings such as nursing homes, long term care facilities, schools, and childcare settings.
- In 2024, the OPIC team has trained over 400 staff and performed 19 site visits.
