Statewide Shared Vision and Action Plan for
Climate Change and Health: Input Session for State and
LHJ Action Steps

Elizabeth Rhoades, Climate Change Local Assistance Unit Manager

Elizabeth Rhoades, Ph.D., is the Climate Change Local Assistance Unit Manager at the California Department of Public Health in the Office of Health Equity's Climate Change and Health Equity Branch. In this role, she oversees climate and health equity technical assistance to local health jurisdictions and Tribes across California, increasing their capacity to mitigate and build resilience to climate change. She also manages CDPH's work under the CDC's Building Resilience Against Climate Effects grant. Previously, she served as the Climate Change Program Director at the Los Angeles County Department of Public Health for nine years, and later as the interim director of the department's Office of Environmental Justice and Climate Health. Elizabeth received her doctorate in public health from the Johns Hopkins Bloomberg School of Public Health.

Kenna Lee, RN, PHN, Office of Health Equity's Climate Change and Health Equity Branch

Kenna Lee, RN, PHN, works in the CDPH Office of Health Equity's Climate Change and Health Equity Branch providing technical assistance to local health jurisdictions (LHJs) and convening an LHJ climate and health community of practice. She holds a certificate in Climate Change and Human Health from the Yale School of Public Health and a Master of Applied Science from the Johns Hopkins Bloomberg School of Public Health, with a research focus on displaced populations.
